ALBUMIN ASSAY
CHANGES1

ALBUMIN ASSAY CHANGES

Annu Khajuria, PhD, Section Head, Chemistry 24 Hour Services

Effective December 2, 2013, the current method used for the Albumin assay performed at the Marshfield Center will be replaced by a bromocresol green method.

Adult reference intervals will change from 3.3-5.0 g/dL to 3.5 -5.0 g/dL for any Albumin reported from the Marshfield Center, following the aforementioned date.

There will be no changes for pediatric (0-12 months) reference intervals, which will remain 2.4 -4.6 g/dL

For details please refer to [Marshfield Labs Test Reference Manual](#), as of December 2, 2013.

Test Code: ALB

For queries and additional information please call 800-222-5835 and ask for:
